

Along the Navajo Trail

Recorded by Bob Wills and Roy Rogers

Written by Larry Marks, Dick Charles, Eddie Lange

Every [C] day along about evening
When the sunlight's beginning to fail [C7]
I [F7] ride through the slumbering shadows
A [C] long the [G7] Navajo [C] Trail

When it's night and crickets are calling
And coyotes are making a wail [C7]
I [F7] dream by a smoldering fire
A [C] long the [G7] Navajo [C] Trail

I [F] love to lie and [Fm] listen to the [C] music
When the [F] wind is strumming a [Fm]
sagebrush [C] guitar
When [Em] over yonder [B7] hill the moon is
[Em] climbing
It [D7] always finds me wishing on a [G7] star

Well what do you [C] know it's morning already
There's the dawning so silver and [C7] pale
It's [F7] time to climb into my saddle
And [C] ride the [G7] Navajo [C] Trail

Instrumental then
